SysTools®
Simplifying Technology

Certified Data Wipe Software
Trusted Worldwide as the #1 Verified Data Erasure Solution.

CERTIFIED. COMPLIANT. TRUSTED.

Safely & Permanently Delete Files & Folders From PCs, HDDs, SSDs, SD Cards, and More.

100% Secure & Certified Solution – Ideal for Individuals, Businesses, Government Entities, Law Enforcement, and Enterprises.

SYSTOOLS DATA WIPE: CERTIFIED SOLUTION FOR PERMANENT DATA ERASURE

When disposing of, reselling, or returning leased IT assets, SysTools Data Wipe provides an industry-leading, compliance-grade solution that guarantees irreversible data erasure. The software ensures that confidential files, sensitive records, and private information are permanently removed from all types of storage devices — making recovery impossible.

With tamper-proof erasure reports and automated audit trails, SysTools helps organizations maintain transparency, prove compliance, and meet both internal and external audit requirements.

KEY FEATURES OF SYSTOOLS DATA WIPE SOFTWARE

Certified & Compliant Erasure
Meets international standards like ISO 9001, ISO 27001, ISO 27701, NIST, and DoD, ensuring audit-ready and legally defensible data erasure.

Permanent File, Folder & Drive Wiping
Securely delete individual files, entire folders, partitions, or complete drives with no chance of recovery.

10+ Global Wiping Algorithms
Choose from multiple data sanitization methods such as DoD 5220.22-M, NATO, British HMG IS5, Gutmann, Russian GOST, and more.

Tamper-Proof Erasure Reports
Generate signed certificates and audit logs automatically to support policies, compliance, and regulatory needs.

Multi-Device Support
Compatible with HDDs, SSDs, external drives, USBs, SD cards, memory cards, cameras, and portable storage devices.

Enterprise & Government Ready
Trusted by businesses, government agencies, and law enforcement for compliance-grade data destruction.

SUPPORTED DEVICES

PC & Laptop **External Drives** **Memory Cards** **Pen Drives** **DVR SYSTEMs** **Digital Cameras**

GLOBAL SECURITY STANDARDS & COMPLIANCE

SysTools Data Wipe complies with ISO/IEC 27001:2022 and other security benchmarks.

ISO Standards:

★ **A.11.1.2:** Secure erasure before equipment reuse or disposal

★ **A.8.3.2:** Secure disposal of media no longer required

Regulatory Compliance:

EUROPEAN UNION: Data deletion follows the requirements of the Regulation of the European Parliament and Council concerning the protection of personal data and the free movement of such data (General Data Protection Regulation – GDPR)

https://eur-lex.europa.eu/legal-content/EN/TXT/HTML/?uri=CELEX:52012PC0011&from=en

UNITED STATES: Data sanitization is performed in line with NIST Special Publication 800-88 Revision 1

http://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-88r1.pdf

GENERAL: Compliance with major administrative, privacy, and security frameworks—including PCI DSS, HIPAA, and SOX—requires the secure removal of data.

MACHINE PREREQUISITES

Hard Disk	: Minimum 100 MB free
RAM	: 4 GB recommended
Processor	: Intel® Core™ 2 Duo or above

Certifications

ISO 9001:2015

ISO/IEC 27001:2022

Data Wiping Methods

Low Grade:

➤ Zero (1 Pass)
➤ Random (1 Pass)
➤ Simple Wipe (1 Pass)

Medium Grade:

➤ Random + Zero (2 Passes)
➤ US DoD 5220.22-M (3 Passes)
➤ British HMG IS5 (3 Passes)

High Grade (Military/Army):

➤ Peter Gutmann (35 Passes)
➤ Russian GOST-R-50739-95 (3 Passes)
➤ NATO Standard (7 Passes)

Trusted by 3M+ Users Worldwide

SysTools has been simplifying technology for individuals and enterprises with secure, reliable, and certified solutions.

Key Benefits of SysTools Data Wipe

Personalized Wiping Modes	Fast & Reliable Data Erasure	100% Irrecoverable Deletion	Prevents Identity Theft & Data Leakage	Automates Erasure for Businesses	Generates Compliance Reports
