

Financial and Accounting Records

Permanently Delete Sensitive Files & Records from Any Storage Device

100% Secure | Irreversible | Compliant with International Standards Trusted by Businesses, Financial Institutions, Legal Firms, Government Agencies and Enterprises.

NO TRACE, NO THREAT

Simple deletion can be recovered by advance recovery tools. As a result, SysTools Data Wipe ensures your **business-critical and financial information is completely unrecoverable** by using advanced wiping algorithms.

Erase sensitive data including:

- **Accounting & Audit Records** – Ledgers, tax files, financial audits
- **Tender Documents & Legal Records** – Bids, contracts, case files, and agreements
- **Confidential Business Data** – Reports, strategies, and intellectual property
- **Financial Statements & Transaction Logs** – Bank data, account details, payment histories

With SysTools, you get **100% assurance** that your financial and corporate data leaves **no digital trace** behind.

SUPPORTED DEVICES

SysTools Data Wipe is compatible with a wide range of storage devices:

PC & Laptop Drives (HDD/SSD)

External Hard Drives & USBs

Memory Cards (SD, MicroSD, CF, etc.)

Digital Cameras & Portable Devices

Pen Drives, PATA Drives and More

KEY FEATURES OF SYSTOOLS DATA WIPE SOFTWARE

Permanent Data Erasure

Securely delete files so they can never be recovered.

Erase Sensitive Business Information

Protect tender documents, legal files, and corporate records.

10+ Internationally Approved Algorithms

Choose from standards like DoD, NATO, Peter Gutmann, Russian GOST, and more.

Comprehensive Wiping Options

Selectively erase files / folders or wipe complete drives, partitions, and volumes.

Financial Data Security

Eliminate account statements, transaction logs, and confidential financial reports.

Audit-Ready Reports & Certificates

Automatically generate detailed wipe reports for compliance and security audits.

GLOBAL SECURITY STANDARDS & COMPLIANCE

SysTools Data Wipe complies with ISO/IEC 27001:2022 and other security benchmarks.

ISO Standards:

- ★ **A.11.1.2:** Secure erasure before equipment reuse or disposal
- ★ **A.8.3.2:** Secure disposal of media no longer required

Regulatory Compliance:

EUROPEAN UNION: Data deletion follows the requirements of the Regulation of the European Parliament and Council concerning the protection of personal data and the free movement of such data (General Data Protection Regulation – GDPR)

<https://eur-lex.europa.eu/legal-content/EN/TXT/HTML/?uri=CELEX:52012PC0011&from=en>

UNITED STATES: Data sanitization is performed in line with NIST Special Publication 800-88 Revision 1

<http://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-88r1.pdf>

GENERAL: Compliance with major administrative, privacy, and security frameworks—including PCI DSS, HIPAA, and SOX—requires the secure removal of data.

MACHINE PREREQUISITES

Hard Disk : Minimum 100 MB free
RAM : 4 GB recommended
Processor : Intel® Core™ 2 Duo or above

Certifications

ISO 9001:2015
ISO/IEC 27001:2022

Data Wiping Methods

Low Grade:

- Zero (1 Pass)
- Random (1 Pass)
- Simple Wipe (1 Pass)

Medium Grade:

- Random + Zero (2 Passes)
- US DoD 5220.22-M (3 Passes)
- British HMG IS5 (3 Passes)

High Grade (Military/Army):

- Peter Gutmann (35 Passes)
- Russian GOST-R-50739-95 (3 Passes)
- NATO Standard (7 Passes)
